OBJECTIVES

Highly motivated software developer with expertise in Python, Django, and Django Rest Framework. Skilled in building robust APIs and proficient in frontend technologies, including JavaScript and React, with a strong focus on building interactive and user-friendly web applications. Seeking an internship opportunity to further enhance my skills, contribute to cutting-edge software projects, and gain practical experience in a professional environment.

PROJECT EXPERIENCES

- Authentication With APIs** (Django-Backend Application)
 - Full authentication with APIs using Django Rest Framework
 - Json Web Token (JWT) for authentication token technology
 - Custom User Model(sqlite3), custom user model admin, change password, reset password, sending email
- CSBox – Repository and blog management system** (Django-Full Stack Web App)
 - Frontend Technology: Django template Engine, Bootstrap, Javascript, JQuery, Ajax
 - Email verification for user registration
 - Course (CRUD), blog system with File upload and download(CRUD), commenting, course token(join course) in each course, Host and Member Separate user interface.
 - PostgreSQL for database

TECHNOLOGY SKILLS

- Python

Django

Dj-Rest Framework(APIs)

Javascript

React

Database

Backend

Frontend

System Design
-

STRENGTH

- Hard working
- Self Motivated
- Quick Learner
- Problem Solver
- Patience
